# Custom Fleet fuel cards

**A Custom Fleet fuel card saves you time and money by providing access to discounted fuel prices and centralising your fuel transactions.**

This service is offered as an optional extra to the current lease or management arrangement you have with us and reinforces our commitment to provide a total 'one-stop-shop' solution.

Whether your fleet comprises cars, light commercials or heavy commercial assets our fuel card options have some very worthwhile benefits.

## Why a Custom Fleet fuel card?

*You can benefit from:*

- Significant fuel discounts based on regional average pump prices
- No transaction fees
- Centralised billing that captures all transactions through your monthly Custom Fleet tax invoice
- Combined reporting on all activities managed through Custom Fleet

Our fuel card products provide convenient fuel purchasing throughout New Zealand. They streamline reporting and manage all administration and transactions. Custom Fleet Mobilcards and Caltex StarCards are widely accepted by more than 800 service stations nationwide.

# Measurable benefits

As a Custom Fleet customer our fuel card service is an ideal solution to ensure the management of your fleet becomes even easier and more cost effective than ever.

## What's more these results are measurable:

- **Effective reporting**

Fuel cards ensure data is captured, allowing more meaningful fleet cost and exception reporting, leading to more cost-effective and efficient management of your fleet.

- **Convenience**

Drivers benefit from the total convenience of the fuel cards allowing them access to over 800 fuel outlets across the country – helping to maximise productivity.

- **Centralised billing**

All fuel costs are billed on your monthly Custom Fleet Tax Invoice, meaning there is only one payment per month for both your lease costs and your fuel.

- **Reduced administration**

Fuel cards help to reduce administration costs by eliminating the need for staff reimbursements and processing of individual service station vouchers.

- **Real savings**

Based on Custom Fleet's combined buying power you benefit from fuel discounts plus no transaction or administration fees meaning lower costs to keep your fleet on the road.

- **Security**

Increased card security is available by utilising the fuel cards' PIN option. Fuel cards are automatically cancelled on vehicle lease termination or upon notification of loss or theft to ensure no fraudulent charges can be made.

- **Controlled purchase limits**

For more control over fuel card purchases there are a number of preset purchase limits to guard against the fraudulent use of the card. These limits are agreed and remain confidential between you and Custom Fleet. Options include:

- **Fuel & Oil** – All fuels including petrol, diesel, CNG, LPG and lubricant products
- **Fuel, Oil & Wash** – All fuels, lubricant products and standard car wash
- **All Products** – All products sold through Mobilcard and Caltex StarCard merchants to a pre-established dollar limit.

Custom Fleet fuel cards are available to all fleet management and leasing customers.
